

Profile

I'm a self-motivated junior front-end web developer.

Mainly, I develop websites using one of the JavaScript libraries, React. Besides, I'm also studying a full-stack development course so that I could expand my knowledge fully in the web development field. Currently, I'm working as a part-time React developer intern at Linuxjobber, Inc

May Yadandar

Junior-level web developer

Education

- **Bachelors of Computer Science, (Software Engineering)**
University of Information Technology (Dec,2016 - Mar,2020)
Yangon, Myanmar

- Attended this university for three years. Over the course of those three years, I worked on various software and web projects using programming languages such as C++, Java, JavaScript, and PHP.
- Worked on group projects designing responsive web designs (HTML, CSS) and developing logistics management systems using C++ during Year 1.
- Participated in group projects on Responsive Web Design with JavaScript and the Online Student Enrollment System of Myanmar Universities with Java in Year 2.
- Conducted group work on the implementation fully functioning restaurant website in Year 3
- Unfortunately, due to certain circumstances in the country, I couldn't complete my studies to achieve this degree

- **Diploma in Full Stack Software Development**

LearningPeople Global (Apr,2022 - Present)
Christchurch Central, New Zealand

Certifications

- **Information Technology Passport Examination Certification**
Issued by Myanmar Computer Federation (MCF) on Feb,2019
- **Responsive Web Design Certification**
Issued by freeCodeCamp on Aug,2022

Hobbies

Reading, Discussing about books, Listening to Music, Traveling, Photographing

Experiences

React intern at Linuxjobber.Inc (2022 Sept - Present)

- Reviewing application requirements and interface designs.
- Identifying web-based user interactions.
- Developing and implementing highly responsive user interface components using react concepts.
- Writing application interface codes using JavaScript following react.js workflows.
- Developing and implementing front-end architecture to support user interface concepts.
